

Relax into Savings

with an air-source heat pump

RESEARCH YOUR OPTIONS NOW FOR COOLING SYSTEMS

Ask your local contractor about air-source heat pumps!

- A heat pump provides whole-house heating and cooling and is a super efficient way to save hundreds of dollars a year on energy bills.
- Mini split systems work great in homes with no central venting systems, such as older homes or new additions.
- In 2022, sales of heat pumps exceeded that of gas furnaces for the first time in the U.S.*

Visit www.EnergyStar.gov for more information on approved units and find MiEnergy's \$200/ton rebate and more at www.MiEnergy.coop/rebates

SHIFT TIPS**

Do The
**SUMMER
SHIFT**

Doing The Summer Shift helps keep electric rates affordable for all members. Anyone can participate by shifting or reducing energy use between the hours of 11 a.m. and 7 p.m. on summer weekdays.

Shift the start of laundry by using the delay button on your washing machine and line dry your laundry.

Discover more Summer Shift Tips in the July MiNews or online at [www. MiEnergy.coop/summer-shift](http://www.MiEnergy.coop/summer-shift)
